Pearl River Valley Electric responding to snow storm outages—Day 2, 9 p.m.

PRVEPA currently has approximately 1300 members still out service. Crews will work until midnight tonight trying to restore service to as many members as possible. We hope to reach the vast majority of those members still without power before the end of the evening. In the event we do not restore all service tonight, crews will be back in the field at sunrise tomorrow to complete the job. We thank all of our members for their patience during this difficult storm restoration.

Outage numbers and locations can be viewed on our website at www.PRVEPA.com. PRVEPA members can to report any outages to the Association's toll free number 855-2PRVEPA (255-277-8372).
